

Supervision Information for Registered Mental Health Counselor Interns and Registered Marriage & Family Therapist Interns

Summer Katz, M.A., LMHC, offers Individual and Group supervision for Registered Mental Health Counselor Interns and Registered Marriage & Family Therapist Interns.

Are you looking for an Approved Qualified Supervisor who can help you navigate through your client-contact experience *AND* assist you with the business side of your counseling practice? As a supervisor, I can offer you supportive guidance over the many topics involved in fulfilling your hours, while also addressing the logistics of building a successful counseling practice. I started my own counseling private practice in 2010 with the introductory guidance and support of my supervisor and mentor when I was a Registered Mental Health Counselor Intern. Today, I continue to apply the important principles of providing very personable and ethical services to my clients as a solo practitioner. I can assist you to learn about the many in's and out's of working either as a salaried employee, a 1099 contract counselor (through an agency), or certainly in the growth of your own private practice.

As a supervisor, I intend to acknowledge the same concepts that I utilize in my counseling practice, as I know that every intern is different. It is my goal to 'meet you where you are' while we discuss cases, address your needs as a growing therapist, and help you to prepare to take the National Clinical Mental Health Counseling Examination (NCMHCE) for licensure.

Upon meeting with you and determining that we are a good fit to work together, I can send a letter to the state indicating my commitment to provide my services to you, as your Approved Qualified Supervisor.

As my intern, I will need you to provide:

- a copy of your current Registered Intern license from the MQA 491 board
- a copy of your current professional liability insurance certificate
- completion of my Supervision Questionnaire (to be provided individually)

I provide individual supervision at a low cost, because I certainly appreciate the financial overwhelm to get started and even "invest" in the field. It is my intention to give back to our wonderful counseling community! Individual supervision can consist of 1-2 interns. I am also happy to provide group supervision at a lower rate. I can provide group supervision for 3-5 people. Group supervision can be utilized for up to 50% of your supervision requirement. Feel free to get a group together to save yourself some money! Please feel free to give me a call to discuss supervision fees.

The below websites have information from and about the *Florida Board of Clinical Social Work, Marriage & Family Therapy and Mental Health Counseling for Registered Interns*, including application information, supervision and client-contact requirements:
